2. The first of these is the fact that the
 world is not a uniform whole. It is not
 a single entity, but a collection of many
 different parts. These parts are not
 all the same, and they are not all
 connected in the same way. This is
 the first of the three main points that
 I want to make. The second point is
 that the world is not a static entity.
 It is constantly changing, and it is
 constantly being shaped by the actions
 of the people who live in it. This is
 the second of the three main points
 that I want to make. The third point
 is that the world is not a simple
 entity. It is a complex system, and
 it is constantly being shaped by the
 interactions of many different parts.
 This is the third of the three main
 points that I want to make.
